

### REMARKS

This Preliminary Amendment cancels, without prejudice, claims 1 to 37 in the underlying PCT Application No. PCT/IL2004/000616 and adds new claims 38 to 72. Claims 38 to 72 closely match those filed by Article 34 Amendment on May 1, 2005, which claims appear as an annex to the International Preliminary Report on Patentability, a copy of which is included herein. The new claims, however, *inter alia*, conform the claims to United States Patent and Trademark Office rules. The new claims do not add new matter to the application.

The underlying PCT Application No. PCT/IL2004/000616 includes an International Search Report, dated October 24, 2004, a copy of which is included herein. The Search Report includes a list of documents that were considered by the Examiner in the underlying PCT application.

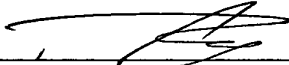

It is asserted that the subject matter of the present application is new, non-obvious, and useful. Prompt consideration and allowance of the application are respectfully requested.

Respectfully Submitted,

KENYON & KENYON *LLP*
